

Maxillofacial Shield (MFS)

Mission

Provide maxillofacial ballistic protection for Army aircrew wearing the HGU-56/P helmet, compatible with visors, Aviator Night Vision Imaging System, Communication Ear Plugs, spectacles, microphones, and lip lights.

Description and Specifications

The **Maxillofacial Shield (MFS)** provides maxillofacial ballistic protection from spall. It also provides improved field of view and antifogging over previous MFS design. MFS is compatible with the HGU-56/P visors, ANVIS, CEP, spectacles, microphones, and lip lights.
